

CONNEXIONS

Design-Build HVAC Contractors

HVAC Services

Construction, installation, and servicing of heating, cooling, and ventilation systems and equipment.

Prioritize occupant comfort, energy efficiency, and indoor air quality. We use high-performance and environmentally friendly products to ensure sustainable, life-long results.

HVAC designed with your best interest in mind

Get custom designed solutions for your unique project - We implement all kinds of systems: water and air cooled systems, custom air handling units, DX AC & VRF. From the measurement of the space that will require heating or cooling, to the fabrication of your ductwork, and development of a ventilation system that allows in fresh air without wasting valuable heating and cooling, we provide sustainable design solutions for your unique needs.

High-performance HVAC Systems & VRF Solutions

Differentiate commercial and residential projects with VRF solutions. VRF solutions are systems that offer higher energy efficiency, smaller footprints, and greater flexibility. Our VRF experts will help you establish and achieve your building performance objectives.

VRF Solutions

- ▶ Superior sound control
- ▶ Up to 50% energy savings
- ▶ Improved indoor air quality

Working with us

1

Trained HVAC technicians

Our certified HVAC technicians are carefully vetted and trained to get things done quickly and correctly from the first time.

2

Seamless Project Delivery

We follow rigorous processes & frameworks to ensure flawless project delivery - delivering projects from a-z within the agreed timelines.

3

Prices that Won't Budge

We offer fair & transparent pricing and are committed to staying within communicated budgets throughout the lifetime of any project.

4

Low Callback Rates

Guaranteed low call-back rates - we pride ourselves in getting things right the first time round.

5

Preventative Maintenance

We provide routine maintenance to prevent any costly disruptions from unexpected equipment failure.

About Connexions

Established in 2010 as an expert in HVAC, Connexions has evolved into a unique Design-Build-Manage Contractor that provides reliable fitout services and innovative turnkey solutions to homeowners, businesses, developers, and contractors.
